THE

Hongkong Telegraph.

HONGKONG, 30TH JULY, 1881.

The prospects of the proposed Tramway Schemes for Hongkong and Shanghai would appear to be very much under a cloud. In Shanghai, the determined hostility of very numerous and influential sections of the different communities constituting the foreign element, to the proposed innovation, and the indiscreet discourtesy of the promoters towards H. E. the Taotai, have apparently relegated, what looked at one time a settled thing, to the remote regions of an uncertain future. Although we have no positive information as to the decision arrived at by the various Consuls, there is reason to believe that it will not be in favour of the proposed tramways. We have seen it stated that the Consuls for France and the United States have declared their intention of opposing the scheme in their respective settlements, and, if such is the case, the entire project had better be abandoned, as it stands to reason that half measures can never achieve success, the more especially when the opposition, even amongst the English and German communities, is known to be of a powerful and determined character.

It is an old saying and a true one, that a house divided against itself cannot stand. The introduction of a tramway system into Hongkong, although promoted by gentlemen of proved ability and high position, we have never been able to regard as a movement of a serious character. We were willing to believe that Mr. F. Bulkeley Johnson and many of his supporters, were really anxious to obtain permission to lay down tramways for the benefit of the general public, although the necessity for, and the advantages to be gained by the innovation, appeared of so uncertain a character that we could see no possibility of the movement ultimately succeeding. When it was publicly announced that Mr. Ng Choy had, as a consideration for abandoning his special scheme, been put on the Directorate of the China Tramways Company we certainly lost a certain amount of our faith in the professedly patriotic principles of the enterprise, for obvious reasons;

and when the inspired organ of the "princely house" intimated, in fulsome phrase, that the whole of the shares of the proposed company were to be offered to the public, and that no appropriation was to be made to the "favored few," we not unnaturally concluded that "the public spirit and a desire for the improvement of property generally was," what our American friends call, "bunkum"; and that the speculative aims of the whole body of promoters were too apparent to require further consideration. The amalgamation of the company with the Hon. P. Ryrie's high level scheme (a measure generally considered impracticable on account of the immense cost of preparing a road up the face of the hill, and our utter poverty in Engineers practically acquainted with an undertaking of this character), puzzled us considerably; but not for long, as the shabby repudiation of this arrangement which soon followed, secured for the company more than one powerful opponent, and safely led us back to our old starting point. The community are now so thoroughly convinced of the real motives of the promoters of this so-called Tramway Company, that any further elucidation at our hands is quite unnecessary.

A hotel at the Peak would be about the greatest boon the inhabitants of this colony could well receive, and there can be little doubt that a hotel would soon follow the inauguration of an improved method of communication between the heart of the city and the higher levels. It may be admitted, however, looking the matter straight in the face, that there is no possibility of any system of tramways, or railways, running from town to the Gap, ever being sufficiently patronised to prove a paying concern, and this is an all important point in considering a question of this kind, as philanthropy is not a flourishing plant in Hongkong. Therefore the tramway scheme advocated by the Hon. P. Ryrie, and Mr. A. F. Smith, would appear to have no prospects of success whatever from a mercantile point of view.

To a lesser extent the commercial prospects of the China Tramway Company would appear to be seriously jeopardised by the great uncertainty which exists as to the actual amount of support which may be relied on from the foreign and native communities. Well managed Tramway Companies at home, with everything possible in their favor, seldom make lucrative returns. In the face of this incontrovertible fact (we have figures to prove our statements should they be called in question), by what magical process are tramways to prove a profitable investment in a place, and amongst a people, whose domestic habits and commercial necessities, are altogether unsuited to such a mode of conveyance. We shall be curious to see the Company's prospectus, so that some idea may be formed of the calculated cost of laying down in thorough order the whole of the necessary plant; also the promoters' views as to working expenses, and estimated returns. There is one heavy item of expense, which so far as we are aware has never yet been mentioned, but which the gentleman who does the statistical portion of the work, would do well to include in his tabulated statement of estimated cost. We allude to the *royalty* to be paid to the Government for the use of the roads of the colony, should the tramway scheme become *un fait accompli*. In London, New York, and other large cities fabulous amounts are paid to the various municipalities for the privileges granted to Tramway Companies, and we do not see that the Government here would be justified in granting the promoters of any private enterprise of a purely speculative character, valuable privileges, in many cases in opposition to the wishes, and detrimental to the interests of the lieges, without receiving some adequate return.

It has been currently reported in the colony that a powerful opposition has been organised against Mr. F. Bulkeley Johnson's Tramway Company, in consequence of the repudiated amalgamation, so that whatever prospects of success the project once had, would seem to be seriously threatened by what appears to have been a prejudiced error of judgment.

LOCAL AND GENERAL.

The steamship *Danube*, and the American ship *Astoria* are booked for the Cosmopolitan Dock to-morrow.

A mail is announced to leave Singapore for Bangkok at 5 o'clock this evening.

Shareholders in the China Traders Insurance Company, Limited, are reminded that the Fifteenth Ordinary Meeting will be held in the Company's Office this afternoon at half-past two o'clock.

A new steamship, the *City of Rome*, for the Fuman line of steamers to New York, was launched at Barrow on Tuesday, June 14th. Previous to the launch the boiler of a donkey engine burst, killing three men, and injuring ten others. The *City of Rome*, next to the *Great Eastern* is the largest vessel afloat.

We are informed by the agent of the P. & O. Co., that the steamer *Zambesi* with the next English Mail left Singapore for Hongkong at 4 p.m. yesterday, and the *Avoca* from Bombay leaves Singapore for Hongkong at 4 p.m. to-day.

After repeated delays and a mass of legal advice on the subject, the case of the man who assaulted Mr. Tonnochy in the gaol will be again investigated this afternoon by Mr. Wodehouse, when it is to be hoped the rascal may be awarded the full deserts of his crime.

The Annual cricket match between the Oxford and Cambridge Universities was concluded at Lord's on June 29th, and resulted in a hollow victory for the Oxonians by 135 runs.

How many times during a month does the *China Mail* use the word "gubernatorial," and what does that estimable journal mean by its, alas, too frequent repetitions of that extraordinary term? This is a conundrum, to which we do not expect an answer.

An anti-Chinese meeting was held on June 18th at the Haymarket reserve, Sydney, at which a resolution was carried holding the Government highly culpable for their negligence in regard to the Chinese question, and also considering them responsible for the introduction and spread of small-pox.

The sales of house property still continue throughout the colony. We have just been informed by Mr. Mahomed, a Parsee broker, that 8 houses in Shelley Street and Mosque Junction, Inland lots 341-342 and 392, the property of Mr. Tauffer, were recently sold to the Chinese for \$10,500. Also that Lot 52 comprising 8 houses in Wellington Street changed hands yesterday for the sum of \$31,000—both buyers and sellers in this case being Chinese.

A recent purchase, of which we append particulars, gives some idea of the fabulous value of ground in the city of London. A plot of land, formerly the site of Allhallows church, at the corner of Bread-street and Watling-street, and having an area of 3,270 ft. super, together with the reversion to the buildings thereon in 78 years hence, has just been sold by Messrs Jones, Lang, and Co., King-street, Cheapside, for £43,200, over £13 per foot super, or at the rate of half-a-million per acre.

We observe in the *China Mail's* police intelligence of yesterday, that Dr. Stewart is reported to have sentenced Chung Achenng, a coolie who was convicted of causing an obstruction in the street by gambling, to six months' hard labour, as a rogue and vagabond. As the full penalty for this offence, (5 George IV., c. 83 Sec. 4), is only three months, we had suspicions

that something was wrong, and made inquiries at the proper quarter, where we were courteously informed that the sentence of the Magistrate was six weeks. This will afford our contemporary another opportunity for an apologetic paragraph.

While many residents are fully aware of the capacity of Captain Deane for a seat on the Legislative Council, it cannot be questioned that, so far as the Police and Harbour Departments are concerned, Captain Thomsett would have represented the most (sic) important interest of the two. The Treasurership, however, will probably be occupied by Captain Deane only for a short time.—*China Mail*.

[Our contemporary's logic, like his grammar is rather shaky. The public will have no difficulty in fathoming the motives which led to the writing and publication of the above senseless paragraph. We think there is something more in this case than the now notorious *cacothyes carpendi*.—Ed. H.T.]

We take the following return of the Export of Silver from Southampton to China and the Straits Settlements from the *London and China Express* of the 24th June:—

Year.	China.	Straits.
1874	£1,658,855	£1,484,851
1875	723,894	870,120
1876	1,273,757	758,461
1877	1,764,875	1,484,433
1878	1,479,819	931,698
1879	466,537	1,093,030
1880	683,522	1,210,179
1881 (to date)	612,930	336,500

Before Mr. Justice Russell, sitting in Summary Jurisdiction in the Supreme Court yesterday, the case of Xavier v. Fukeera, for \$200, disclosed some curious speculations in regard to Sweeps on the last race meeting. Mr. Mossop appeared for the complainant, and explained to the Court that the action was brought to recover money paid and received on account of security to the Cosmopolitan Club against possible losses on the Race Sweeps. It appeared that the sum of \$800 was the amount guaranteed by three of the members, in the sum of \$200 each. The defendant in this suit was one of these three guarantors, and as he was unable to deposit that amount himself he borrowed the money from plaintiff on the understanding that he was to share in the profit expected to accrue from the sweeps. The transaction unfortunately proved to be a losing affair for the club, and defendant declined to meet his alleged liabilities to plaintiff on the plea that should the transaction have proved successful he, the plaintiff, would have shared in the profits, so he ought on the other hand to take a share in the losses. A deal of conflicting evidence was taken and His Lordship having summed up expressed himself to the effect that the whole affair seemed to savour of a gambling transaction, and non-suited the plaintiff.

In a recent issue of the *Times* we note that at the close of the morning sitting of the House of Commons on Friday, the experiment of lighting the House with the electric light was tried. Twelve square lamps for the electric lights had been inserted in the glass roof, and soon after 7 o'clock, when the House was cleared, the new light was brought into operation. The effect was on the whole doubtful; there was a difference of opinion among the members and others, as to whether on the whole, the skillfully applied gas light from the glass roof was not softer and less trying to the eyes. It was conceded, however, that in one respect the electric light was an improvement on the gas, inasmuch as the rising temperature always noticed in the House after the lighting of the gas above the glass roof, was avoided last night. The electric light was severely tested before the House resumed business at 9 o'clock, but it was thoroughly under control, and the House transacted the business of the evening, sitting under the new light. It is intended to make another trial on Friday next. Alterations will be made in the lights in the roof and additional lamps will be placed under the galleries, where there are now gas jets. The experiments were carried out in the presence of Mr. Shaw-Lefevre, First Commissioner of Works, and a large number of members and visitors.

An absurd recommendation appears in the columns of our evening contemporary that members of our local police force should be mounted on bicycles when employed carrying messages and letters. As there is a thorough and complete system of telegraphic communication between the whole of the police stations of the colony, it may seldom happen that policemen are required to carry messages or letters, and consequently little or no use might ever be found for the employment of these machines. If the extreme old age of the *China Mail* (established in February, 1845), is not beginning to tell on our contemporary's memory, it ought to be within the recollection of that organ that a few years ago a collision occurred between a policeman mounted on a bicycle, and His Excellency, Sir Arthur Kennedy's carriage, in the Queen's-road East, at No. 4 Police Station. The excuse given by the constable for his share in the business being, that the station house, which is a corner building, projected so far out into the roadway as to prevent him from seeing the Governor's approach in time to prevent a collision; and the result was that the front wall of No. 4 was taken down and rebuilt about five feet further back. An order was then issued we believe forbidding policemen to ride bicycles in the public street, and it is scarcely to be expected that that order will be now cancelled; and besides, as the *China Mail* is in favor of the tramway, why not send policemen by that conveyance when on a land journey.

Hongkong Journalism.

To the Editor of

"THE HONGKONG TELEGRAPH."

Sir,—There is an old saw to the effect that prevaricators (to put it mildly), should have good memories, and on the strength of the proverb I would recommend to the editor of the *China Mail* a work by one Stokes. Some days ago the evening paper announced that a Mr. Vawdrey was passing through Hongkong on his way to Japan, and stated that that gentleman had frequently written to the *Mail* over the nom de plume of "Observer" and of "A Straits Journalist." This Mr. Vawdrey beats Sir Boyle's bird altogether, for, not content with having passed on to Japan, he again appeared last night as "Observer" with his latest edition of bathos from the Straits. It has been truly said that any fool can get into a difficulty, and it is equally true that it takes a clever man to get well out of one. In the article by "A Straits Journalist" which you handled so severely, the writer stated that he had not been in Hongkong for four years; and in an apologetic paragraph in the *Mail* it was stated the writer left Hongkong eight or ten years ago. How is this discrepancy to be accounted for? I am an old resident here, and can answer for it that no gentleman of the name of Vawdrey has been on any Hongkong paper for the last sixteen years; and when the question cropped up at dinner one night this week a friend of mine who has been in the Colony over 20 years, offered to stake, on the strength of his memory alone, twenty "Banks" to as many beans that no person of the name of Vawdrey had ever been "resident" in this colony (in the proper acceptance of the word), in his time.

As you did not notice the paragraph referred to, I thought it possible you may have missed it, but there is one in last night's paper too good to be overlooked. In it Captain Thomsett is recommended for a seat in the Legislative Council, and a more palpable "Sop to Corberrus" was never thrown. Any man who knows Captain Thomsett must be well aware that he has quite enough work on his hands already; that he has no desire to figure in the position mentioned; and that he will be one of the first to see through the very thin brown paper plaster offered him by the evening print.

LATEST COMMERCIAL INTELLIGENCE.

Saturday, July 30th, 1881.
One o'clock P.M.

The Chairman in moving the adoption of the Report and Balance sheet at the half-yearly meeting of the Hotel Company, held yesterday, referred in congratulatory terms to the present favorable position of the Company's affairs, alluding particularly to the fact, that for the first time since the formation of the concern, the shares were quoted at a premium. We seriously incline to the belief that the improved position of the Hotel Company's stock is solely owing to an idea which has been spread abroad relative to the desire of certain Chinese speculators to purchase the property. There has been so many important transactions in property within the Colony during the past few months, (and a good number of bogus sales too, which have been advertised as legitimate transfers), that the value of the Hotel has no doubt been greatly enhanced; but it may be fairly asked, if it is probable that this property craze is likely to become a permanent institution! Truly enough Hotel shares have been made the medium of a good deal of speculation; but their fluctuations in the market have been anything but a sure indication of permanent stability. That the property will eventually be sold we cannot doubt, and when some *bona fide* offer has been made, the shareholders will be in a better position to judge of their actual prospects, than they possibly can be at present, with nothing to guide them but a quotation which is not reliable, and an announcement that the lessees are making money out of their contract. Hotel shares are on offer at \$110 per share, without finding purchasers, and if the tone of the market is to be taken as an indication, they will go a good deal lower before they lead to substantial business of a legitimate character. With the exception of a few more sales of Banks at 115 cash, and time transfers for the end of December at 124, the Stock Exchange was drawn a blank yesterday. Docks were offered at 56 without leading to business, and we did not hear of a single enquiry referring to any other stock. Our detailed list of quotations therefore remains unaltered, as nothing has been done up to the time of going to press.

Hongkong Hotel Company, Limited.

The ordinary half-yearly meeting of the shareholders in the above Company was held at the Hotel yesterday afternoon. There were present Messrs. E. R. Bellios (Chairman), W. Reiners, Hon. P. Ryrie, H. Hoppius (Directors), A. E. Vaucher, E. George, J. H. Cox, Dr. Gomes, G. Reynell, H. Smith, D. McCulloch, A. A. Remedios, H. Kuhlmann, J. Remedios, F. C. Dittmer, and L. Hauschild (Secretary).

The Chairman said:—Gentlemen—You have doubtless studied our report and accounts for the past half-year. You will now consequently allow me to take them as read. The report has touched on all the important points connected with this institution; there is, therefore, very little for me to add. However, I have to congratulate you on the prosperous condition of your investment. Since the formation of this Company, this is the first meeting whereat we may with pride say that our shares stand at a premium in the stock list of Hongkong. Never in the history of this Company have shares been even at par. From the records in the office it appears that the original allottees failed to take up 142 shares of the stock of the Company. Whether this was done purposely with the view of getting rid of their liability, owing to the then gloomy future of the venture, or because the means of these gentlemen were limited at the time, I cannot say, but the fact remains that when we took charge of the affairs of the Hotel, we found them standing as an asset in the accounts. At a recent meeting of the directors it was discussed as to whether or not they should be issued. You are aware we are paying at present to the shareholders a dividend of five per cent on the paid-up capital and the money on loan costs us 7½ per cent.; considering that by launching those shares in the market the gain to the propriety would have been only 2½ per cent per annum, and likewise bearing in mind the offers that are being made by Chinese to purchase the property, we did not deem it advisable in the interests of the existing shareholders to allot them. I dare say, gentlemen, you will ratify our action in this particular and will give us discretionary power to deal with the shares as we think fit at any future period on your account. Under article 88 of the Deed of Association the directors are entitled to a remuneration of \$3,000 every year. Hitherto the Board has been content to take \$1,000 only, but for the past half-year they have appropriated to themselves remuneration at the rate of \$2,000 per annum. To acquire and keep eligible and responsible men as directors, it is necessary that they should be decently paid. I have no doubt this will meet with your approval. The promises are well kept. As a consequence of the good management and the sumptuous table that are maintained here by the lessees, I am happy to tell you they are making money. Unless there are questions that require replies, with these remarks, gentlemen, I ask you to adopt the report and the accounts.

Mr. Vaucher seconded, and the report was unanimously adopted.

On the motion of Mr. Hoppius, seconded by Dr. Gomes, the election of Mr. W. Reiners and Hon. P. Ryrie to the board, to fill the vacancies caused by the death of Mr. Landstien and the resignation of Mr. Grobrien, was confirmed.

Mr. McCulloch proposed and Mr. Cox seconded, that Messrs. Bellios and Hoppius, the retiring directors, be re-elected, which was carried.

On the motion of Mr. Reiners seconded by Mr. Smith, Messrs. Vaucher and Copé were re-elected auditors. The Chairman said that was all the business, and the dividends would be payable on and after to-day (Saturday). Mr. Vaucher proposed a vote of thanks to the Chairman and Directors for their management of the Company's business, which was unanimously carried.

RAZORS MOST CAREFULLY RE-SET.

Mr. MOORE begs to recommend his
GOGO SHAMPOO WASH to the public as
unrivalled by any preparation ever pro-
duced for promoting the growth of the
hair. The basis of this compound is
made of soap root; the natives of the
Philippine Islands never use anything
else for washing their hair; they are
never found bald, and it is quite com-
mon to see the females with hair from
5 to 6 feet long. By constantly using
this Shampoo WASH as directed, you
will never be bald. The proprietor
offers the Wash to the public entirely
confident that by its restorative pro-
perties it will without fail arrest decay-
ing hair. It completely eradicates
scurf, dandruff, and cures all diseases
of the scalp. It does not contain any
poisonous drugs. By its cooling pro-
perties it allays the itching and fever
of the scalp, which is the great cause
of people losing their hair.

Mr. MOORE has succeeded in being
able to put this wash up in bottles
without allowing it to ferment, and he
will guarantee it to keep any length of
time in any climate.
